

2020 Virginia Breastfeeding Report

Human milk feeding is a proven primary prevention strategy, building a foundation for life-long health and wellness for infants and parents.

Virginia Breastfeeding Rates

See how Virginia breastfeeding rates and other measures compare to national rates and targets set by the Healthy People 2020 (HP2020) initiative.

	Breastfeeding Initiation Rate	Largest Disparity Between Racial/Ethnic Groups
Virginia	86.2%	18.2%
U.S. National	84.1%	16.7%
HP2020 Target	81.9%	N/A

Source: [National Vital Statistics System birth certificate data](#), a census of all 2019 births and the largest collection of breastfeeding data. Breastfeeding initiation is measured as a percentage. Largest disparity in breastfeeding initiation between racial/ethnic groups is measured as a percentage difference.

	Exclusive Breastfeeding at 6 Months	Any Breastfeeding at 12 Months	Formula Supplementation at 2 Days	mPINC Score
Virginia	30.4%	42.3%	16.2%	81
U.S. National	25.6%	35.3%	19.2%	79
HP2020 Target	25.5%	34.1%	14.2%	N/A

Source: [CDC Breastfeeding Report Card](#), a biannual publication highlighting progress towards breastfeeding goals in the United States. Breastfeeding and supplementation rates are measured as a percentage. CDC's national Maternity Practices in Infant Nutrition and Care (mPINC) survey assesses maternity care practices that affect how babies are fed.

WIC Program Breastfeeding Performance Measures

The Special Supplemental Nutrition Program for Women, Infants and Children (WIC) program provides supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, and to infants and children up to age five. The WIC program serves approximately 53 percent of all infants born in the United States.

	Fully Breastfed Rate	Partially Breastfed Rate	Total Breastfed Rate	Fully Formula Fed Rate
Virginia WIC Rates	10.2%	11.7%	21.9%	78.1%
National WIC Rates	12.1%	21.9%	33.9%	66.1%

Source: [Fiscal Year 2020 WIC Breastfeeding Data Local Agency Report](#). Breastfeeding and formula feeding rates are measured as a percentage of participating children under one year of age.

Federally Funded Lactation Projects in Virginia During 2020

Each year funding is allocated to a variety of federally funded programs that include infant feeding support through the federal appropriations process.

Centers for Disease Control and Prevention

- The [CDC Hospitals Promoting Breastfeeding program](#) provides critical support to advance breastfeeding continuity of care and increase access to lactation-friendly environments in states, hospitals, and communities. In Fiscal Year 2020, this program was funded at \$9 million.
- With funding from the CDC, the National Association of County and City Health Officials supported organizations to conduct a [community assessment of the lactation landscape](#) at the local level with the intent to utilize findings to improve breastfeeding rates in communities with historically low rates of breastfeeding. In Virginia, NACCHO is supporting Healthy Hearts Plus II to conduct a community assessment of African American and Latinx families in Richmond 23222, 23223, and 23224 zip codes.

Health Resources & Service Administration, Maternal and Child Health Bureau (HRSA, MCHB)

- The [Title V Maternal and Child Health \(MCH\) Block Grant](#) provides funding for states and jurisdictions to meet the unique health needs of their children and families. Virginia has chosen increasing the percentage of infants who are ever breastfed and infants who are breastfed exclusively through 6 months as one of their Title V Maternal and Child Health grant National Performance Measures.
- The [Healthy Start program](#) strengthens the foundations at the community, state, and national levels to help women, infants, and families reach their fullest potential. The Healthy Start program implements community-based interventions to improve the health of mothers and children, including lactation education. Virginia received two Healthy Start awards totaling \$2,293,186. The Virginia Department of Health was awarded \$1,165,343. Urban Strategies, which is headquartered in Arlington but provides services in Puerto Rico, received \$1,127,843.

U.S. Department of Agriculture, Food and Nutrition Service

- Each year, the Food and Nutrition Service (FNS), Special Supplemental Nutrition Program for Women, Infants and Children (WIC) presents the [WIC Breastfeeding Award of Excellence](#) to recognize local WIC agencies that have provided exemplary breastfeeding promotion and support activities. The following Virginia agency was awarded:
- *WIC Breastfeeding Awards of Excellence Gold Award 2020*: Chesapeake WIC Program.

Breastfeeding Coalitions Serving in Virginia

The USBC supports an extensive network of state, tribal, territorial, local, and cultural breastfeeding coalitions working to create policy, systems, and environmental (PSE) interventions to better serve babies and families. The following coalitions serve in Virginia:

- Virginia Breastfeeding Coalition: <https://vabreastfeedingcoalition.org/>
- Breastfeeding: Rights, Education, Advocacy, Support Team Roanoke: <http://www.breastroanoke.org/>
