

Expanding Connections and Partnering for Progress

THREE DAYS OF ENRICHING SESSIONS & CONNECTION

Partnering to bolster organizational vitality, enhance collective impact, and transform organizational culture to advance diversity, equity, inclusion, justice, and belonging

Building relationships to align efforts in advancing lactation support, and promote continuity of care in the First Food field

Bridging national and local initiatives to strategize policy, systems, and environmental change to realize our vision for thriving families and communities

June 8-10

BETHESDA, MARYLAND
in person at the Hyatt Regency

The USBC National Breastfeeding Conference & Convening brings together a diverse cohort of clinical, community, advocacy, and research individuals who recognize the public health importance of breastfeeding and human milk, for three days of group learning and lively connection. **Join us!**
